

TOUCHSTONE
AT GOSPEL ROCK

Condominium Features

Featuring West Coast inspired architecture intended to fit purposefully into the grade and forested landscape, The Residences at Touchstone Village reference the tall Cedars and Douglas Fir trees through vertical elements and peaked roofs. This four-level building offers an exclusive collection of 1 bedroom and den, 2 and 3-bedroom homes in a curated selection of thoughtfully designed floor plans, including five townhomes and four live-work lofts. From many of the homes' patios and decks, residents will enjoy expansive views of Howe Sound and the Salish Sea.

Each and every detail in the homes at The Residences at Touchstone Village is designed to enhance your lifestyle. Our interior design team, Portico Design Group, took their cue from the rugged shoreline and forest experience that surrounds this magical place to create a contemporary coastal vision for the interior materials and finishings.
